

Letter to Employees on Incentive Trip

Congratulations on qualifying for the incentive trip to Barcelona, Spain, a city where you can explore and experience an abundance of amazing art, architecture and beautiful beaches.

Cradled in the North Eastern Mediterranean coast of mainland Spain, Barcelona is an internationally renowned top tourist destination. It's the cosmopolitan capital of Spain's Catalonia region, and the country's second most populous municipality. Well known for its art and architecture, you'll find the masterpiece Sagrada Família church and other modernist landmarks designed by Antoni Gaudí which charm the city. Museu Picasso and Fundació Joan Miró feature modern art by their namesakes and the city history museum MUHBA includes several Roman archaeological sites. Stroll Las Ramblas and enjoy Barcelona's unique blend of Catalan culture, distinctive architecture, lively nightlife and trendy, stylish hotels. Taste local delicacies and enjoy some shopping at their famous La Boqueria market which is known as the heart of the city.

September is also the best time to visit Barcelona and enjoy what the city has to offer. With an average daytime temperature of 26°C/78°F you avoid the sweltering and humid summer conditions, making it ideal for walking around and visiting popular tourist spots. Yet the weather is still warm enough to experience the beauty of Barcelona beaches. Stretching a coastline for 4.5km, there is wide variety of excellent beaches for you to savor the sun including Mar Bella, Nova Icària and Bogatell. You will be sure to find the perfect place to rejuvenate and reward yourself.

Learn more on this exciting experience just ahead of you. Refer to the pages of this registration site for more detailed information. Once again, congratulations on your tremendous achievement and enjoy every moment that a career at Just Energy has to offer!
